chifco

Life, but Smarter

About Chifco

Chifco is a Tunisian startup specialized in the Internet of Things (IoT) and Machine to Machine (M2M). Based in Tunis, Sousse and Paris. Chifco was established in 2011 by Amine Chouaieb. In the vein of acting local and thinking global, Chifco has a present in France, United Kingdom, South Africa, USA and North Africa. We make your objects "Smart". We have developed an infrastructure and a technology that helps connecting your daily objects to the Internet, thus giving you control of your environment. Our solutions enable the creation of new services that are efficient, smart, and designed for companies as well as individuals.
